PERSONAL SUMMARY

Hands-on experience in AI-powered full-stack web development and scalable software solutions. Proficient in Python, Java, React, FastAPI, SQL, and PostgreSQL, with a strong foundation in Data Structures and DBMS. Passionate about building real-world applications, contributing to open-source projects, and leveraging Generative AI to develop innovative software.

EXPERIENCE

Haronex Technology Private Limited

Anand, Gujarat

Role: Gen-AI Web Developer

May 2026 - Present

- Developed a full-stack Appointment Management System using **Next.js**, **Django**, and **PostgreSQL**.
- Built responsive web and mobile interfaces and implemented secure backend APIs for appointment scheduling and user management.

SKILLS

Technical Skills:

Python, Java, SQL, PHP | HTML, CSS, MERN Stack | Pandas, NumPy, Scikit-learn | MySQL, MongoDB, PostgreSQL | GitHub, Jupyter Notebook, VS Code | Lovable, ChatGPT, Claude, GitHub Copilot, Antigravity | Figma, Canva | Software Development Life Cycle (SDLC) |

Soft Skills

Leadership, Team Management, Project Management, Problem Solving, Critical Thinking, Communication, Professional Work Ethic.

EDUCATION

Bachelor of Technology in Computer Engineer| CGPA: 7.56/10 till 4th Sem
Charotar University of Science and Technology (CHARUSAT)

Anand, Gujarat
Jun 2024 – Pursuing

Higher Secondary School (GSHEB) | PR: 89.15
Sharda Mandir Anitaben Devangbhai Patel Ipco Wala Day School

Nadiad, Gujarat
March 2024

PROJECTS

Designed an 8-bit binary password system utilizing logic gates (Hardware project)

Designed and implemented an 8-bit binary password security system using XOR, NOT, and AND logic gates on a breadboard with DIP switches and LEDs, enabling access only when the entered 8-bit code exactly matched the predefined password.

AI-Based Requirement Analysis & Auto-Scaffolding Platform

FastAPI, React, PostgreSQL, Google AI, JWT Built a full-stack AI-powered platform that conducts real-time conversational interviews to gather client software requirements and auto-generates SRS documents; implemented secure JWT-based authentication and a scalable FastAPI backend that automates GitHub repository creation, CI/CD setup, and deployment via optimized in-memory streaming.

ACHIEVEMENTS & CERTIFICATIONS

Software Group Project (AI Interview Website)

4&5th Semester Subject

Anand, Gujarat
Dec 2025 – Continue.

NPTEL Data Base Management System (IIT Kharagpur)
Completed by Scoring 63%

Online
Jan-March, 2026

Top 20 in Charusat GDG Tech Sprint Hackathon
1 Week GitHub Contribution Hackathon (Platform: GitHub)
Open-Source Contributions

Online
March 2026

NPTEL Python for Data Science (IIT Madras)
Completed by Scoring 72%

Online
Jul-Aug, 2025

Inner Collage CODE QUEST-2025
Winner (3rd Rank) (Coding Competition)

Anand, Gujarat
August, 2025

ODOO Hackathon Participate

Online
Jun 2025
