PERSONAL SUMMARY

500+ Hr Hands-on experience in AI-powered full-stack web development and scalable software solutions. Proficient in Python, Java, React, Fast API, SQL, and PostgreSQL, with a strong foundation in Data Structures and DBMS. Passionate about building solutions to real-world problems and contributing to open-source projects. Participated in 22+ hackathons, including 2x Smart India Hackathon (SIH) and 2x Odoo Hackathon, with 8 semi-finalist finishes. Skilled in technology networking, resource and team management, event coordination, and collaborative leadership.

EXPERIENCE

Haronex Technology Private Limited — Anand, Gujarat
Role: Gen-AI Web/App Developer — May 2026 – July 2026

- Developed a full-stack Appointment Management System using **Next.js, Django, and PostgreSQL**.
- Built responsive web and mobile interfaces (Flutter) and implemented secure backend APIs for appointment scheduling and user management.

SKILLS

Technical Skills:

Python, Java, SQL, PHP | HTML, CSS, MERN Stack | Pandas, NumPy, Scikit-learn | MySQL, MongoDB, PostgreSQL | GitHub, Jupyter Notebook, VS Code | Lovable, ChatGPT, Claude, GitHub Copilot, Antigravity | Figma, Canva | Software Development Life Cycle (SDLC) |

Soft Skills

Leadership, Team Management, Project Management, Problem Solving, Critical Thinking, Communication, Professional Work Ethic.

EDUCATION

Bachelor of Technology in Computer Engineer| CGPA: 7.56/10 till 4th Sem — Anand, Gujarat
Charotar University of Science and Technology (CHARUSAT) — Jun 2024 – Pursuing

Higher Secondary School (GSHEB) | PR: 89.15 — Nadiad, Gujarat
Sharda Mandir Anitaben Devangbhai Patel Ipco Wala Day School — March 2024

PROJECTS

Genie–AI-Based Requirement Analysis & Auto-Scaffolding Platform – SGP

Developed a full-stack AI platform using Fast API, React, PostgreSQL, and Google AI for real-time conversational requirement gathering and automated SRS generation. Implemented JWT authentication and automated GitHub repository creation, CI/CD setup, and deployment.

VaaniDoc – Multilingual Voice-First AI Triage Platform - Team Project

Built an offline-first PWA with IndexedDB for low-bandwidth healthcare access and automatic data synchronization. Integrated Groq Llama 3.3 and Sarvam AI for multilingual voice parsing across 14 languages with 96.4% accuracy, using Cloudflare Workers, Hono, and Supabase with privacy-focused data handling.

Internship Projects

Appointment Management & Mental Health Marketplace System – Solo Project

Built a full-stack appointment and marketplace platform using Node.js, Express, MongoDB, Next.js, and Socket.IO. Developed dynamic scheduling with slot locking, multi-location support, and timezone handling, along with an LLM-powered triage chatbot, therapist wallet, assessments, Agora video calls, and Razorpay payments.

Manahverse Mental Health Platform & Mobile Apps – Team Project

Collaborated with a cross-functional engineering team to develop Flutter-based patient and therapist applications. Integrated Agora RTC, Razor pay, Riverpod/Provider, and interactive modules for AI companion chat, audio soundscapes, assessments, and appointment management.

ACHIEVEMENTS & CERTIFICATIONS

NPTEL Data Base Management System (IIT Kharagpur) — Online
Completed by Scoring 63% — Jan-March, 2026

Top 20 in Charusat GDG Tech Sprint Hackathon — Online
1 Week GitHub Contribution Hackathon (Platform: GitHub) — March 2026

Software Engineering Specialization - Coursera — Online
by Hong Kong University of Science and Technology (HKUST) — February 2026

NPTEL Python for Data Science (IIT Madras) — Online
Completed by Scoring 72% — Jul-Aug, 2025

Inner Collage CODE QUEST-2025 — Anand, Gujarat
Winner (3rd Rank) (Coding Competition) — August, 2025
